BPTT DESIGNED COVERALLS

NOMEX IIIA

A coverall designed by BPTT, the design is required for persons operating on BPTT's facilities and require fire retardant protection and visibility. The coveralls are made from Nomex

Front Features

- Double stitched Collar
- Snap Close on neck line
- Double stitching with DuPont Nomex thread for consistency with fire retardant fabrics.
- Double head, double stitched two way brass zippers, for ease of accessibility to under garments and comfort.
- Hidden Snaps on fold that covers zip for added safety on fire retardant coveralls.
- Two double stitched front chest pockets, for durability.
- Double snaps on cuffs for adjustable fit.
- Double stitched front patch pockets on pants for added storage and convenience.

Back Features

- Pleated shoulders for manoeuvrability
- Two double stitched back pockets for durability
- Featuring a durable double stitched tool pocket for convenience and additional storage.
- Double stitch on seat for added strength.
- 1-1/4" elastic waist band at back for comfort and manoeuvrability
- Side seams double stitched for added strength.
- 2" Reflective strip on shoulders, which span across to back, for added visibility from above.
- 2" Reflective strip below breast pockets, which wrap around the back, for increased visibility.
- 2" reflective strip on Legs 18" away from hem.
- 2" reflective strip on arms 6" away from cuffs.
